Fast - Focused - Effective - Affordable

- * Community Acupuncture is fast. You can just drop in or you can schedule ahead. It takes about half an hour. You even can come on your lunch break!
- * Community Acupuncture is focused. When you come, we will focus treatment on a specific problem. Some people come just to relax.
- * Community Acupuncture is effective. It is very effective for day-to-day aches and pains, allergies, tension, headaches, fatigue, stomach problems.....and so much more. Just call to find out if it can help you.
- * Community Acupuncture is affordable. By treating in a group setting and focusing on a specific problem we can offer acupuncture for only \$35.

What To Expect When You Come

When you arrive, you'll make your payment, schedule your next appointment, and then go into the clinic area to choose a treatment chair. Settle in and tell your acupuncturist what you want to work on. You'll rest for 10-20 minutes with the needles. It's a great way to stay healthy or get immediate relief from a problem.
